

Presentation of the Permanent Conference on Life Energy, Syntropy and Resonance

Ulisse Di Corpo¹ and Antonella Vannini²

The first *Life Energy, Syntropy and Resonance* conference was held in Viterbo, Italy, in August 2013.

The aim of the new “permanent conference” on Life Energy, Syntropy and Resonance is to provide a platform in the fields of science, humanities and arts for insights, achievements, and knowledge on life energy. The platform will be freely accessible and contributors will not have to pay fees or face costs. The web address is: www.sintropia.it/le

Contributors are asked to provide:

- a paper which will be published on the free open access “Syntropy Journal” and in the anthology (printed using Amazon, and available worldwide at “production cost”).
- a talk which will be recorded and made available online

Authors will retain their copyright, and at any moment, they can ask to have their videos and papers removed (also from the anthology).

To participate send your paper to Ulisse Di Corpo at ulisse.dicorpo@gmail.com . After checking that your paper is coherent with the Life Energy and Syntropy topic you will be contacted for the video. Examples of videos are available at www.sintropia.it/le . There are no length limits for the paper and the video.
