

16.00 Roger Taylor *A preliminary study of the "life-energy" associated with orgonite, ormus and pyramids by means of a quantitative dowsing technique*

16.30 Break

Chair: Ulisse di Corpo

17.00 Jon Taylor *The physical and biological foundations of ESP*

17.30 Marina Alfano, Rosolino Buccheri (sponsored by Antonio Giuditta) *Science's impermeability as impediment to the permeability of knowledge*

17.50 *The mysterious lights of the Norwegian Hessladen valley (a documentary video)*

18.50 Free time

21.00 Gala Dinner

Sunday, August 16

Chair: Antonio Giuditta and Stefano Siccardo

9.00 Round Table on "*Nature, origin and role of mind*"

9.00 Peter Moddel: "Mind with regard to Meaning"

9.30 Robert Jahn, Brenda Dunne: "The Quantum Mechanics of Consciousness"

10.00 Antonio Giuditta: "Mind and Biological Evolution"

10.30 Garret Moddel: "Physics is still OK"

11.00 Free discussion

12.00 Break

12.20 Emilios Bouratinos *The fifth force*

13.00 Lunch

14.00 Congress ends

Society for Scientific Exploration

Challenging paradigms | Scientific Anomalies | Unexplained Phenomena

8th European Meeting "Frontiers of Biology and Contemporary Physics"

August 13 – 16, 2009
Hotel Domus La Quercia
Viterbo, Italy

PROGRAM

Program Committee:

Antonio Giuditta, Chair; Ulisse Di Corpo; Gerd H. Hovelmann;
Stefano Siccardi; Erling P. Strand

Local Organizer: Ulisse Di Corpo

Sponsors:

Istituto Italiano per gli Studi Filosofici, Naples, Italy; Accademia di Scienze Fisiche e Matematiche, and Accademia Pontaniana, Naples, Italy; Italian monthly magazine ASTRA

www.scientificexploration.org
www.sintropia.it/sse/

Thursday, August 13

- 12.00 Registration desk opens
- 18.00 Get-together party
- 20.00 Dinner

Friday, August 14

Chair: Erling Strand

- 8.45 Welcome
- 9.00 Ulisse Di Corpo *Luigi Fantappiè*
- 9.40 Antonella Vannini *Pre-stimuli heart rate reactions*
- 10.00 Vittorio Elia *Dissipative structures in extremely diluted solutions of homeopathic medicine*
- 10.40 Richard Blasband *The effects of healing intention on water*

11.00 Break

Chair: Gerd Hövelmann

- 11.30 Rita Pizzi *Evidence of neuron sensitivity to ultraweak electromagnetic fields*
- 12.10 Antonio Giuditta *The 1907 PK experiments by prof. Filippo Bottazzi*
- 12.50 Massimo Biondi *A pragmatic approach to cases of non-recurrent spontaneous psychokinesis*

13.30 Lunch

Chair: Robert Jahn

- 15.00 Paul Devereux *Walking with spirits*
- 15.40 Bjørn G Hauge *Transient luminous phenomena in the low atmosphere of Hessdalen valley, Norway*

- 16.20 Break
- 16.50 Guided tour of Old Viterbo
- 21.00 Dinner

Saturday, August 15

Chair: Garret Moddel

- 9.00 Alexander Trofimov *Weakening of the protecting geomagnetic field and biological evolution*
- 9.40 Maria Luisa Felici, Giulio Caratelli *Poltergeist cases and geomagnetic factor: a verification*
- 10.00 Edgar Wunder *The (non)testability of astrology. Some theoretical considerations and empirical attempts for solutions*
- 10.30 Break

Chair: Chantal Toporow

- 11.00 Vasileios Basios *Complex systems and living systems: a promenade on the borderline*
- 11.40 Bruno d'Udine, Philip Franses (sponsored by Antonio Giuditta) *Medicinal herbs as a living paradigm of the new dynamic between biology, physics and complexity*
- 12.00 Brigitte Holzinger *Cognition during sleep: a therapeutic intervention in nightmares*
- 12.20 Lewis Hollander *Weight gain transients as a clue to consciousness access*

12.40 Lunch

Chair: Rosolino Buccheri

- 15.00 Garrett Moddel *Teasing energy from zero-point fluctuations*
- 15.30 John F. Caddy *Resonance and the implicate order: are creativity and ceremony poles apart?*
